“The whole game of ‘rock’ was designed and maintained by the patriarchy, so if the rules are written by men, it makes it very difficult for women to infiltrate. It’s very difficult still for women to be treated as equal thinkers and creators.”

–Shirley Manson, Garbage

“Symbolic violence, such as the violently misogynistic imagery in artwork and lyrics; women being faced with a barrage of questions to prove the authenticity of their fandom; the dominance of men in bands and prejudice faced by women musicians; and women fans being represented in the media as groupies, more interested in the musician than the music.”
